Clark	Charlestown, Jeffersonville, Silver Creek, and Utica Townships	24-Hour TSP	3/3/1978 10/5/1978 (Primary)  4/22/1985 (Jefferson Township designation changed to secondary attainment)							Charlestown, Silver Creek, and Utica Townships redesignated to attainment on November 2, 1982.  TSP designations removed from the Code of Federal Regulations on June 16, 1997.
Clark	Entire County	Annual PM <sub>2.5</sub> (1997)	1/5/2005	4/5/2005	Basic	4/5/2008	4/5/2010	9/9/2016		The 1997 annual fine particles standard was revoked in the August 24, 2016 Federal Register (FR) published at 81 FR 58010 with an effective date of October 24, 2016. Therefore, an updated maintenance plan is no longer required.

County List: All Regulated Criteria Pollutants										
County Name	Area	Pollutant	Date Designated Nonattainment	Effective Date of Nonattainment Designation	Nonattainment Classification Type (if applicable)	State Implementation Plan Due (if applicable)	Attainment Date (5 Yrs. from Effective Date of Designation) (if applicable)	Date Reclassified to Attainment w/Maintenance Plan (if applicable)	Date Maintenance Plan is to be Revised (8 Yrs. after being Redesignated ) (if applicable)	Notes
Clark	Entire County	Annual PM <sub>2.5</sub> (2012)	N/A	N/A	Unclassifiable					On April 7, 2015, U.S. EPA announced additional air quality designations for the 2012 annual primary standard. In that announcement, U.S. EPA designated Clark and Floyd counties as “unclassifiable” due to uncertainties with monitoring data within Louisville’s monitoring network. Due to these uncertainties, U.S. EPA was unable to determine whether air quality in the entire Louisville KY-IN area was meeting the 2012 PM <sub>2.5</sub> NAAQS, or whether the area was contributing to a potential violation in the Jefferson County, Kentucky portion of the area. U.S. EPA attainment designations for the 2012 annual standard became effective on April 15, 2015 (80 FR 18535). There are no negative implications associated with the area remaining designated “unclassifiable”. U.S. EPA has no plans on taking action to redesignate the area to “attainment”. No further state action is required.
Daviess	Veale Township	1-Hour SO <sub>2</sub>	7/25/2013	10/4/2013		4/6/2015	10/4/2018			Attainment demonstration was submitted to U.S. EPA on October 2, 2015.
Dearborn	Lawrenceburg Township	8-Hour Ozone (1997)	4/15/2004	6/15/2004	Basic	6/15/2007	6/15/2009	5/11/2010		The 1997 8-hour ozone standard was revoked in the March 6, 2015 Federal Register (FR) published at 80 FR 12264 with an effective date of April 6, 2015. Therefore, an updated maintenance plan is no longer required.

Lake	Entire County	Annual PM <sub>2.5</sub> (2012)	N/A	N/A	Unclassifiable					On December 18, 2014, U.S. EPA announced final designations for the 2012 annual primary standard. Lake and Porter counties were designated “unclassifiable” due to uncertainties with monitoring data within Chicago’s monitoring network. Due to these uncertainties, U.S. EPA was unable to determine whether air quality in the entire Chicago IL-IN-WI area was meeting the 2012 PM <sub>2.5</sub> NAAQS, or whether the area was contributing to a potential violation in Chicago’s portion of the area. U.S. EPA attainment designations for the 2012 annual standard became effective on April 15, 2015 (80 FR 18535). There are no negative implications associated with the area remaining designated “unclassifiable”. U.S. EPA has no plans on taking action to redesignate the area to “attainment”. No further state action is required.
LaPorte	Entire County	8-Hour Ozone (1997)	4/15/2004	6/15/2004	Moderate* Changed to Marginal on 11-22-04	6/15/2007	6/15/2010	7/19/2007		The 1997 8-hour ozone standard was revoked in the March 6, 2015 Federal Register (FR) published at 80 FR 12264 with an effective date of April 6, 2015. Therefore, an updated maintenance plan is no longer required.
